

Professor Upul Sonnadara is a Senior Professor and holds the Chair of Physics at the University of Colombo. He is also the Director of Postgraduate Studies of the Faculty of Science. Prior to this he served as the Director of Undergraduate Studies for seven years and contributed to the implementation of the credit based course system in the Faculty of Science. He also contributed towards introducing two new specialized degree programs in Physics, Engineering Physics and Computational Physics, the Masters degree program in Applied Electronics and the External degree program in Electronics and Automation Technologies. He is a member of the QA cell of the Faculty of Science, University of Colombo.

He obtained his Ph.D. in Relativistic Heavy Ion Physics from University of Pittsburgh, USA in 1992. He has to his credit over 75 journal publications, with 2400 citations, most of which are in indexed journals, and over 120 publications in conferences and symposia. In 2016 he was awarded the CVCD excellence award for the Most Outstanding Senior Researcher in the Field of Physical Sciences.
