

Program design and development

Group 3

Introduction

- Criteria 3 is the most important aspect of the graduate programme
- All the other aspects are to support the effective outcome of the criteria 3
- **Key stages**
 - **Foundation**
 - **Structure**
 - **Building**
 - **Finishing/ Implementation**
 - **review**

2. Essential points

1. Current needs – whether we planned the degree correctly
2. Legal aspects (Senate approval) and the code of practices (SLQF/subject bench mark)
3. Complies with the corporate plan (Vision/Mission/programme outcome)
4. Designing tally with the graduate profile
5. Effectiveness of the teaching learning programme (realistic objectives, ILOs)

2. Essential points.....

- 6. Enhance the student centered learning / skill development
- 7. Interdisciplinary approach
- 8. Minutes of monitoring body to evaluate internal efficiency of the programme
- 9. Aligned with global requirements
- 10. Modern techniques

3. Evidence

- Accreditation from relevant bodies
- Surveys on the sustainability / employability of the programme
- Students annual event calendar

4. Good practice

- Establishment of study board with relevant stakeholders
- maintain the event map and review it
- Target orient and reflective practices/ procedures

2: essential points

- 1. evidence of the participatory approach for designing of the programme by the responsible committee/s
- 1.1- initial stage
 - Minutes of meetings/ feedback from different stakeholders
 - Analysis and statistics
- 1.2- approval stage
 - Relevant bodies → FB → Senate
