

# Innovative and Healthy Practices

Group 8

# The TEAM

- Prof. N. Shanmugalingam, Senior Professor in Sociology and Former Vice Chancellor, University of Jaffna
- Prof. Mahinda Kommalage, Faculty of Medicine, University of Ruhuna
- Dr. A. Jahfer, Faculty of Management and Commerce, South Eastern University
- Prof. Sandun Senarath, Department of Botany, University of Sri Jayewardenepura

# Introduction

- Innovative and healthy practices will enrich the academic programs in the competitive world
- These practices should enhance the personality of the students as well
- These practices should make sure that our graduates have unique qualities to meet our needs and also to compete with graduates from other sources

# Impact on graduate profile

- ICT platform
  - Improve their ICT culture and usage
- Student centered learning
  - Graduates will be more creative and develop lifelong learning abilities
- Research in the faculty level
  - Graduates will be more research oriented
- Reward mechanism for staff
  - Motivate staff to work effectively to produce better graduates
- Student exchange
  - Graduates get more exposure and widen the vision
- Industrial linkages and community engagement
  - Graduates will identify the opportunities and also make contacts with outer environment
- Sports and aesthetic activities
  - Graduates will have more balanced and creative personalities to fit to the society

# Essential points in SER

- ICT platform
  - Content management system (Moodle)
  - How many users in content management system
  - How many assignments etc.
- Student centered learning
  - Evidence for web published teaching materials or any other teaching material
- Research in the faculty level
  - Number of publications in past year/years
  - Number of research fund received
  - Patents etc

# Essential points in SER contd...

- Reward mechanism for staff
  - Existence of reward systems such as VC awards
  - Faculty level teaching excellence award
- Student exchange
  - Number of exchange students (in and out)
- Industrial linkages and community engagement
  - Number of MoU signed last year
  - Industrial partnerships with evidence
- Sports and aesthetic activities
  - Colours award
  - Sports festivals etc

# Other evidence

- Laboratories and resources developed through industrial partnerships
- Number of rewards received by the graduates and the staff
- Number and nature of community engagement programs

# Suggesting good practices

- Students involved in extra curricular activities are not been taken in to consideration at the time of grading so suggested to have scheme to evaluate them and reward at convocation
- Intercultural creations and interactions to be introduced to enhance the social harmony among graduates
- Teaching and creative achievements excellence award
- Reintroducing Kavitha like programs as it reduces students unrest and bring harmony 😊

THANK YOU
